Customer Service 1st Level Support

W+D-Langhammer 1st Level Support at the Starting Line

Beginning on **October 1st, 2011** W+D-Langhammer customers come in the benefit of our new **1st Level Support**. Via our **Hotline Support** you can always receive the help you need from our technical department – 24 hours a day, 7 days a week (Online Remote Maintenance optional). Through our effective prevention maintenance management weak spots are identified early. This greatly increases the uptime of your units. What makes our service so special? Only specialists trained on your units are entrusted with maintenance work ensuring a maximum of quality.

Our **Service Manager Dieter Gerwert** would be happy to inform you personally and present you with a tailor-made quotation.

You can reach him at d.gerwert@langhammer.de or via telephone: **+49 6351 900245**.

W+D-Langhammer Opens Sales and Service Office in Italy

The demand for complete system solutions – from tissue paper converting to packaging and on to palletizing and transport – is growing rapidly. W+D-Langhammer's customer base in Italy as well. To be able to efficiently organize customer support and coordinate complete system solutions we will as of now be operating an office at **Fabio Perini S.p.A. in Lucca**.

Alfonso Perez, Area Manager for the Region South, will in addition to our office in Spain be taking over the responsibility for this new location in Italy.

New: CMB202-LA02 Robot and Bundler Work Together Like a Hand in a Glove

Casmatic and **W+D-Langhammer** have been able to develop a completely new packaging machine through the combination of proven modules from their machine assortment.

The modules product infeed, robotic arrangement of products and the wrapping of the resulting formation are all set up successively in one line. This machine design makes it possible to easily realize optimal layouts.

The use of a gantry robot makes for a very flexible grouping of pre-programmed bundle formations. The bundle groups can also be turned resulting in completely new configurations which make optimal use of the pallet surface.

The bundles can be arranged in such a way that the brand names are visible on all four sides of the bundle group – a definite asset in supermarket environments.

W+D-Langhammer, KPL Packaging and Fabio Perini will be presenting the **CMB202-LA02** integrated in a tissue line at an **Open House Event** in connection with the **MIAC 2011 in Lucca, Italy**.

We'd be happy to see you there!

New Violeta Opening

On **April 20th, 2011** the new **Violeta** production plant in **Sveta Helena** (near to Zagreb), **Croatia** was officially opened.

In his welcoming speech **President Ivo Josipović** praised the tissue plant as one of the most modern in Eastern Europe. **Violeta Chairman Peter Corluka** warmly thanked **W+D-Langhammer** for the successful collaboration between the two companies.

But W+D-Langhammer, with a high performance PA 8 palletizer and product and pallet transport, was not the only **KPL** company involved. Our sister company **Fabio Perini** also contributed to the success of this project with a rewinder.

Trade Shows

The **ABTCP** is an international exhibition for the **Paper and Tissue Converting Industry** which takes place every year in **Sao Paulo, Brazil**. With 167 international exhibitors, some 12,000 visitors from 25 different countries and an area of 7,000 m² the ABTCP is the most important exhibition in South America. W+D-Langhammer together with the **Fabio Perini** sister companies will be exhibiting at **booth No. 238** from **October 3rd to the 5th, 2011**.

Increasing productivity, working effectively and more efficiently – these are reasons enough to come to **Stockholm**,

Sweden for the **PACK & EMBALLAGE 2011**.

This trade show is oriented to customers from a variety of industries all revolving around the theme of packaging and automatization.

W+D-Langhammer will exhibit there from **October 5th to the 6th, 2011** in the **Stockholmsmässan Center**.

Come visit us at **booth No.C10:31**.

The 18th edition of **MIAC** will take place in the **Exhibition Centre of Lucca - "Lucca Fiere"** - from **October 12th to the 14th, 2011**. W+D-Langhammer will exhibit together with the **Fabio Perini** companies at **booth No. 88**.

During the **MIAC** trade show the **Fabio Perini** companies together with W+D-Langhammer will organize an **Open House Event**.

One of the highlights will be the **CMB202-LA02** packaging machine developed together by **Casmatic** and **W+D-Langhammer**.

South and South East Asia are expected to become the fastest growing markets for paper in the next 10 years.

The 10th edition of **Paperex** – scheduled from **December 10th to the 13th, 2011** in **New Delhi, India** is the largest exhibition and conference in Asia for pulp and paper technology.

W+D-Langhammer will exhibit there together with its KPL sister companies at the **Körber PaperLink GmbH** stand (**booth No. 638**).
